Vision Statement Creation Handout

Individual Reflection Guide

This handout is designed for **individual engagement and reflection**. It invites each commissioner to consider their own perspective, lived experience, and values related to aging and equity in Alameda County. Individual reflections can later be shared to inform a collective Vision.

What Is a Vision Statement?

A Vision Statement describes the **future ACA is working toward**. It reflects the long-term conditions older adults should experience if systems, policies, and services are equitable, accessible, and responsive.

A strong vision focuses on **impact, equity, and quality of life** not specific programs or activities.

Why the Vision Matters

The Vision Statement:

- Centers **older adults' lived experiences**, especially those historically underserved
 - Grounds advocacy in **equity, dignity, and access**
 - Guides recommendations to the Area Agency on Aging and the Board of Supervisors
 - Keeps long-term outcomes at the forefront of decision-making
-

Key Characteristics of a Strong Vision

- **Future-focused** and aspirational
- **Inclusive of all older adults**, regardless of income, ability, language, race, gender identity, housing status, or immigration status
- **Clear and concise**
- Typically **1 sentence (10–25 words)**

Core Reflection Question

If the ACA is successful, what should aging look and feel like for *all* older adults in Alameda County?

Guided Reflection Prompts

Take a few moments to reflect on each prompt before drafting your Vision Statement.

Aging with Dignity & Choice –

What does dignity in aging mean to you?

- How should choice and self-determination show up in seniors' daily lives?

Equity & Access –

Which older adults face the greatest barriers today?

- What inequities should no longer exist in the future you envision?

Community & Belonging –

How should older adults feel within their families, neighborhoods, and communities?

- What does meaningful connection look like for seniors across cultures and abilities?

Systems & Support –

How should county systems respond to the needs of older adults?

- What would accessible, coordinated, and respectful services look like?
-
-

Capture Key Words or Phrases

List words or ideas that feel essential to **your** vision:

Draft Your Personal Vision Statement

Using the reflections on the previous page, write a one-sentence vision that reflects your hopes for aging in Alameda County:

Vision Statement Examples (For Inspiration Only)

- *An Alameda County where all older adults, across identities and abilities, age with dignity, equity, and choice.*
- *A county where seniors are valued, supported, and able to thrive in their communities.*
- *Equitable and inclusive aging that honors the voices and needs of every older adult.*

Personal Vision Check

Before finalizing, ask yourself:

- What does this vision center on?
- Does it reflect the **real experiences of diverse older adults**?
- Would this vision guide my decisions as a commissioner?

If yes, your Vision Statement is ready to share.

Remember: This is your personal reflection. Collective vision begins with individual clarity!
